

Tahoma Meadows B&B
'Cozy Cabins at Lake Tahoe'
Adventures with Your Dog at
Lake Tahoe

We would like to welcome you and your dog to Tahoma Meadows.

The following outlines nearby places on Tahoe's West Shore to enjoy with your four-footed friend. Always remember to please pick up after your dog.

Swimming and Beaches

Chambers Landing: Officially dogs are not allowed, however after 6:00 p.m. during the Summer or anytime Fall, Winter and Spring, it is OK to take your dog to the beach on the right side of the beach towards the creek.

Blackwood Canyon: From Tahoma Meadows, drive 4 miles north on HWY. 89. You can park on the beach side to swim in the lake or drive up Blackwood Canyon Road to swim and hike around the creek.

Hurricane Bay: From Tahoma Meadows, drive 5 miles north on HWY. 89 till you see the 50 foot "designated dog beach" on the right hand side. It is across the highway from the Hurricane Bay Estates development.

Kiva Beach: From Tahoma Meadows, drive 15 miles south on HWY. 89 and you will see Kiva Beach to your left at the Tallac Historical Site just north of Camp Richardson.

East Shore Beaches: From Tahoma Meadows drive 9 miles north on HWY. 89 to Tahoe City. At Tahoe City, head east on HWY. 28 past Incline Village. The beaches are scattered along the highway and are hard to see. Once you see cars parked on the side of the road, park and walk towards the lake and you will see many trails leading down to the water. The east shore has some of the most beautiful beaches on the lake. You and your dog can swim out to one of the many rocks that stick out of the crystal clear water.

Tahoma Neighborhood: Walk to the top of the property and go through the back gate. You can walk your dog in the neighborhood behind us. Be aware there are a lot of dogs in the neighborhood that may not be on leash. This area is very convenient for a short walk.

Sugar Pine Point State Park: Short walk from the B&B. Go south on the paved trail near the B&B entrance for about 2 miles until you are in Sugar Pine State Park. Dogs are **only allowed on paved trails and leash laws are strictly enforced**. Walk around the grounds of the historic Ehrman Mansion.

Hikes:

Meeks Bay: Doggies love this hike! Drive south for 2.5 miles on HWY. 89. 200 yards past the Meeks Bay Resort you can park at the old log building on the right and make your way on the dirt path. Please do not block the driveway. If you are planning a longer hike into the wilderness, please fill out a day permit. Wonderful winter and summer!

Crag Lake-Tahoe Yosemite Trail: 10 miles round trip, moderate. The Tahoe-Yosemite trail starts at the Meeks Bay trailhead. This trail takes you into Desolation Wilderness, with a variety of wildflowers in spring and summer. A wilderness permit is required for this hike. Begin your hike down the gated dirt road and veer right at the Tahoe-Yosemite trail sign. You will pass Lake Genevieve; Crag Lake is just 10 minutes farther. If you continue down the trail you will find the following lakes: Hidden, Shadow, Stony Ridge, Rubicon, Grouse, and Phipps.

Grand Avenue: 1.75 miles each way, easy. You will find Grand Ave. 3.5 miles north of the B&B, just north of Fleur Du Lac Estates. Turn away from the lake onto Grand Ave. and park at the end of the street. Follow the old road/trail past the gate. The trail will meander for almost 2 miles until you intersect the Barker Pass Road. Look for wildflowers in June and July.

Eagle Rock: 1.5 miles round trip, easy. Drive from the B&B about 4 miles north on HWY 89. You will cross Blackwood Creek and then see a split rail fence on your left. You can park anywhere near the fence. The trailhead is at the north end of the parking area. Be careful at the top. Eagle Rock is made up of crumbly old lava. Do not go too close to the edge.

Eagle Falls Trail: 3 miles round trip, moderate. From the B&B, drive 10 miles south on HWY. 89 to the back of Emerald Bay. Turn right at the Eagle Falls parking area. A wilderness permit is required for this hike. Begin your hike at the Eagle Falls Trailhead. You will follow a creek and pass a breathtaking waterfall, as you approach Eagle Lake which is surrounded by gigantic granite cliffs.

Cascade Falls Trail: 2 miles round trip, easy. The trail head is at the back of the Bay View Campground on the south side of Emerald Bay. Park and follow the Bay View Trail and veer right at the Cascade Falls Trail. This will take you to the falls overlooking Cascade Lake. Be careful, the rocks can be slippery. Follow the creek upstream and enjoy the large granite boulders and water hole. No wilderness permit required.

Granite Lake/ Bay View Trail: 2.5 miles round trip, moderate. The trail head is at the back of the Bay View Camp ground on the south side of Emerald Bay. Park and follow the Bay View Trail and veer right at the Cascade Falls Trail. At the next junction, go left to Granite Lake. Hike up this steep trail with beautiful views of Lake Tahoe. This lake is a great spot for swimming and fishing. A wilderness permit is required for this hike. You can also follow this trail to the top of Maggie's Peak.

Velma Lakes Trail: 11 miles round trip, moderate. A wilderness permit is required for this hike in Desolation Wilderness. Use the Bay View (preferred) or the Eagle Lake trail head for this hike, approximately 10 miles south to the back of Emerald Bay. Make a right at the Eagle Falls trailhead parking lot. Start on the Eagle Falls Trail and veer left at the Velma Lakes Trail sign. You will pass

Granite Lake on the Bay View or Eagle Lake on Eagle Lake Trail your way to Upper, Middle, and Lower Velma Lakes. This is a great spot for swimming and camping.

Ellis Peak Trail: 6 miles round trip, moderate. From the B&B, drive 4 miles north on HWY. 89 and turn left on Barker Pass Rd. Follow Barker Pass Rd. all the way to the top of the pass, approximately 7 miles. The trail starts right where the pavement ends. You will hike through forest and meadows, and along the way see beautiful views of Lake Tahoe. When the trail splits, go left to Ellis Lake or right to Ellis Peak.

Fishing:

There are tons of lakes and stream in this area where you can have your dog with you. If you're in the National Forest you can have them off leash. Please be respectful and don't let your dog disturb other fisherman's water. Ask Dick about the local conditions.

Down Hill Skiing:

Many people have a dilemma when it comes to what to do with Fido while you go skiing. Here are some options:

- Contact one of the pet sitters on our **Important Pet Info for Lake Tahoe** sheet.
- Bring your dog in the car with you to the mountain and tailgate your lunch together.
 - Dogs are not welcome at North Star or Heavenly. So find a sitter if you ski there.

Un-Official Dog Parks: Tailgate your lunch with Fido and let them run while you eat.

Alpine Meadows – Park near base station of the Subway chair.

Squaw Valley – Park near the Far East/Papoose center.

Homewood – Park at the North lot of the North lodge or next to the vehicle maintenance building at the South Lodge.

Cross Country Skiing & Snowshoeing

Tahoe XC: Ski with your dog on about 15 km of groomed trails, Monday-Friday 8am-5pm, Saturday, Sunday and Holidays restricted times. Additional trail fee applies. (530) 583-5475, www.tahoexc.org

Tahoe City Winter Sports Park: Cross country skiing, snow shoeing, sledding, snow play. On the golf course behind SaveMart.–Winter ONLY! For times check: www.WinterSportsPark.com (530) 583-1516

Meeks Bay: Ski or snowshoe. This is the start of the Tahoe-Yosemite Trail. The trailhead is 2 miles south of the B&B, just past Meeks Bay Resort. Look for a dirt parking area on the right side of the road. If this parking is inaccessible continue south over the creek. There is usually some cleared out spaces next to the Forest Service campground entrance and fire station. Be sure you are all the way off the road to avoid being sited. This trail stays in the meadow for 1.1 miles and then continues on into Desolation Wilderness. If you are going on into the wilderness be sure to fill out a day permit at the trailhead. You will often find the main trail is to “booted out” for skiing. If you want smoother ski conditions head out into the middle or the South side of the meadow. About a ½

mile out into the meadow on the South side you will find a series of frozen meadows that are ideal for skate skiing in the spring.

Corner of Lagoon and Meadow St. (Homewood): One of the few spots that allows on street winter parking. Mind the signs. This is a great spot in big snow years when other areas don't have any parking.

Page Meadows: Ski or Shoe. Just north of Sunnyside, turn left on Pine St. and veer right on Tahoe Park Heights Dr. Continue up the steep hill (you may need 4WD or chains if the road is snowy) and turn right on Big Pine Dr. Make your first left on Silver Tip Dr. Go to the end of the paved road and park. The trail starts at the end of Silver Tip Dr. This unmarked trail for intermediates will take you and your dog to a big open meadow.

Gate Keepers Museum/Beach: Park at the Gate Keepers Museum parking lot next to Fanny Bridge. Go past the Museum down to the beach and you can ski or snowshoe for miles going south towards Sunnyside. Best when the water level of the Lake is low.

Blackwood Canyon: Best for snowshoeing. From the B&B, drive 4 miles north to the parking area on the right. A snow-park permit is required to park here. This road is gated off in winter. The first 2.5 miles are flat, a great spot for beginners. For more of a challenge, the trail continues another 7 miles and gets steeper and more difficult.

Baldwin, Kiva & Pope Beaches: South of Emerald Bay, near Camp Richardson. Baldwin & Kiva are pet friendly only in winter when the gates are closed.

Please do not use these directions for navigation. All distances are approximate. Know how to read a topo map and use a compass before venturing off into the wilderness. Be sure to take maps, extra clothing, food, water and lots of common sense before going into unfamiliar areas. Be sure to let someone know where you are going and what time you plan to return.

Wherever you go, we ask that you please respect **all wildlife**; birds, plants, and animals. If you encounter a bear yell and make noise and **never feed the bears**. Here in Tahoe, a fed bear is a dead bear. Bear's that become too accustomed to people are shot and killed, not relocated. Please do not allow your dog to harass any wild animals.

Please pick up all garbage after yourself, and others who were careless, in order to protect the pristine lake and forest we call home. If you smoke, never throw a cigarette butt out of your car window or on the ground as you walk. Fire danger is a real danger and there is only one road in and out of Tahoe. Once again, please remember to **pick up after your dog, pack it out**. **There are no doggy poop bag fairies on the trails.**
